Newsletter - November, 2020

EnhanceMicroAlgae continues to work towards facilitating information and knowledge transfer among players in the microalgae sector whilst keeping in line with the evolving Covid-19 safety guidelines and regulations.
We hope you are keeping safe.

[Download our latest Newsletter here](#) and read about our project outputs and publications.

Inside this Issue:

- Read about the last EMA annual meeting.
- Full list of EMA publications.
 - *Latest:* [Light quality triggers biochemical modulation of *Cyanobium* sp.— photobiology as tool for biotechnological optimization.](#) Published in Journal of Applied Phycology.
 - *Latest:* [Bioactive potential of *Cyanobium* sp. pigment-rich extracts.](#) Published in Journal of Applied Phycology.
 - *Latest:* [Updated UPLC DAD MS/MS pigment composition of *Tisochrysis lutea* and purification of fucoxanthin using centrifugal partition chromatography for the chemosensitization of melanoma cells.](#) Published in Algal Research.
- Upcoming conferences and workshops relevant to the microalgae sector.

Stakeholders Database

The [EMA database of stakeholders](#) is now available: an easily accessible, visual, and open access database bringing together all the European Atlantic Area players working in the microalgae sector.
The database is receiving continuous updates so make sure to visit the page!

EnhanceMicroAlgae Marketplace

The [EMA virtual marketplace](#) is already running! A platform for the exchange of
